TECHNICAL PROVISIONS AND CATEGORIES

The entire sporting event is governed by the applicable rules of World Archery (WA), the SLZ competition regulations and the provisions of this schedule.

It is shot in two lines.

Qualification takes place according to the standards of the WA H1-18m squad, with the first 32 shooters from each division progressing to the subsequent elimination part called the ELIMINATION LEAGUE.

Competition divisions are divided according to the type of targets as follows:

- **Recurve:** Shoots at a vegas target.
- **Barebow:** Shoots at a 40 cm solid target.
- **Compound:** Shoots at a vegas target.

Competitors are included in the qualification in the following age categories: **U18M, U18W, U21M, U21W, men (M), women (W), 50+M and 50+W**.

COMPETITION SYSTEM: ELIMINATION LEAGUE

Exactly 32 best archers from the qualification in each division advance to the prestigious ELIMINATION LEAGUE elimination phase.

In this part of the competition, there is no difference between age and gender - **one common category** is created in each division (competitors from U18 to 50+ are combined).

Group stage (Phase 1)

Based on the qualification results, archers in each division will be divided into four groups of eight participants. Within the groups, elimination matches will be held using the “everyone against everyone” (1 against 1) system, which means that each archer will complete 7 challenging matches.

Recurve / Barebow / Compound

The number in the group indicates the shooters ranking after qualifying.

group 1	group 2	group 3	group 4
1	2	3	4
8	7	6	5
9	10	11	12
16	15	14	13
17	18	19	20
24	23	22	21
25	26	27	28
32	31	30	29

Matches in the Olympic and Barebow divisions are shot in sets to 6 points (or 5 points in the event of a draw). The Compound division is competed for the cumulative score of 5 sets.

Matches in this basic group are shot without range and may end in a draw.

For a win, the shooter receives 2 points in the group table, for a draw both players receive 1 point.

Promotion key to the elimination spider (Phase 2)

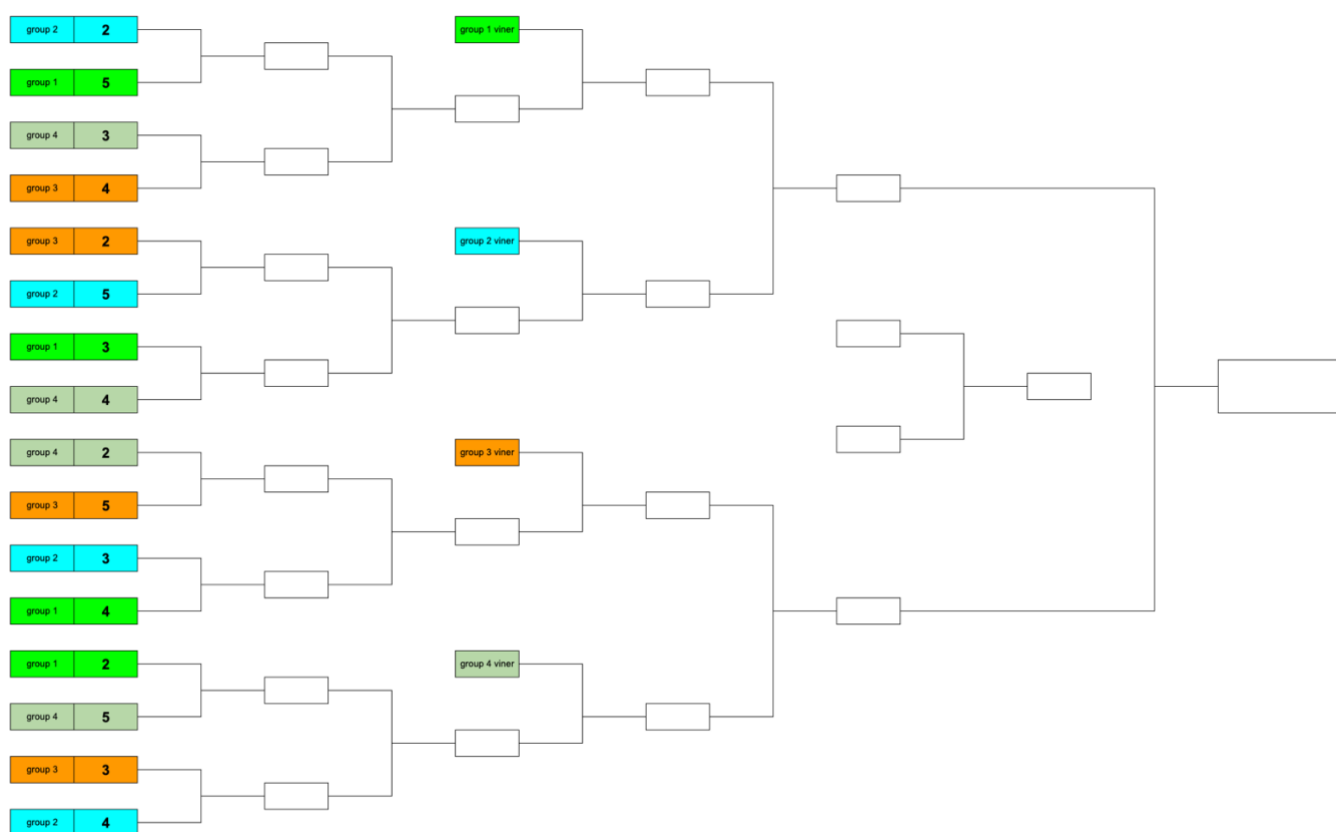

The 5 best shooters from each group advance to the second, purely elimination phase. **The overall winner of the group secures direct advancement to the quarterfinals (1/4).** Shooters in positions 2 to 5 are ranked according to the following criteria in the specified order: the first is the total number of points, the second criterion is the number of sets won.

In the event of a tie, the following rules apply:

- If there is a match in points and sets won for 1st place in the group, an immediate shoot-off for 1 arrow (with a previous 90-second training session) follows.
- If there is a match in positions 2nd to 5th, the exact order will be decided by a draw.
- If there is a match in points and sets at the critical limit for advancement among the top 5 shooters, a shoot-off for 1 arrow (with a previous 90-second training session) will decide who advances.

These successful shooters will then be placed in a classic elimination spider. At this stage, classic elimination matches are already underway, where in the event of a draw, an immediate shoot-off follows. The final matches for precious metals will be shot in an attractive alternative way and the entire final afternoon will be broadcast live via the YouTube platform.
